# Biarritz

the elegance of the Ocean

## An uncut diamond

Being both natural and sophisticated at the same time, Biarritz is one of the most prestigious seaside resorts of the French Atlantic coast.

Between the mountains and the ocean waves, it offers exceptional natural surroundings with many attractions: palaces, luxurious hotels, golf courses, the Casino, thalassotherapy spas, rich gastronomy, and the sweetness of its air... From its height of 73 metres, the Lighthouse proudly dominates the horizon. From its esplanade, an exceptional panorama is presented: the Basta and Virgin Rocks, the beaches of fine sand, the fishermen's port, tamarisks and hydrangeas, and the coast of the Landes and the Pyrénées.

## BETWEEN THE OCEAN AND THE MOUNTAINS, THERE IS NO SHORTAGE OF ACTIVITIES ON OFFER !

■ The golf courses of Biarritz : the golf course of Biarritz le Phare, one of the oldest courses in Europe and the Ilbarritz golf course with its international training centre.

## The Queen of beaches and the beach of kings

This small and originally peaceful fishermen's village became one of the most highly prized seaside destinations under the influence of Napoléon III and the empress Eugénie. Picturesque and colourful, the fishermen's port with its "crampottes" (old traditional fishermen's cottages) houses some excellent seafood restaurants and famous Basque "tapas" bars.

## The star of surfing

Established for 50 years in the local culture, surfing is a part of everyday life in Biarritz. Ranking as a site of reference in surfing, the Grande Plage, with its big, powerful waves, has the reputation today of being one of the best spots in the world.

- European surfing capital, Biarritz, with its schools and Surf Camp.
- Other activities: thalassotherapy spas, deep sea diving, horse riding, pelota, hiking...
- To visit: The small train, The sea museum, History museum, World chocolate museum.

## Euskal Herria the country where strength of character is tradition

Immerse yourself in the extreme whiteness of the small charming villages, contemplate the surfers on the different spots marking the coastline, seize the wildness of the horses in the Ossau Valley, fall under the spell of the infectious effervescence of the traditional festivals throughout the land...

Welcome to the Basque Country, an area bathed in a unique natural light spreading from one side to the other of the Pyrénées Occidentales. The beauty of its scenery still intact inviting you to fall under its enchantment.

Born from the blend of the mountains and the ocean, the contrasts found between its coast and inland are

the reason it is such an exceptional place. Nature is revealed in all its splendour: spreading plains, mountainous peaks, verdant forests, steep and spectacular cliffs, and long beaches of fine sand.

As you discover the culinary arts of the Basque Country, you will be seduced by the diversity of its traditional cuisine; the spiciness of Espelette chilli, the succulence of the Bayonne ham and not to forget the famous Basque cakes. Passed on from generation to generation, the traditions rooted in Euskadi bear witness to a lively culture and a strong cultural identity.
